

Use of FI –mark with NPM –mark on plastic pipe products

Confirmation

FI mark can be used as verification of suitability to transport drinking water on pipes included in certificate INSTA-CERT 3006, certified according to certification rules INSTA-CERT SBC 1452.

The products are produced of the following materials:

- Ineos Norvinyl S-6745 / Vinnolit S 3268 (recipe in accordance with the application of 2022-03-29)

The certificate holder is **Pipelife Norge AS**.

Contact person is Pål Johan Svanem / pal.johan.svanem@pipelife.com

Annual tests verifying the characteristics required for products in contact with drinking water shall be carried out according to the particular SBC as well as reported to Inspecta Sertifiointi Oy.

Annamajja Naula-Iltanen
